

Erratum for Publication I

The following misprint has been found in Paper I:

- **Paper I**

- p. 976, line 27. The values of attenuation for the fundamental harmonic operation, in the stopband, normalized to the effective grating length $|\kappa\lambda_0|^{-1}$, should be $\gamma\lambda_0|_{\text{SB}} = 0 \dots 15 \cdot 10^{-3}$ Nepers.
