

Errata for “The perfect binary one-error-correcting codes of length 15: Part II—Properties”, Helsinki University of Technology, Department of Communications and Networking, Report 2/2009.

On page 3, table V should be following (corrected entry in bold):

Table V  
COORDINATES FIXED BY SYMMETRIES OF CODES

Coordinates	#	Coordinates	#	Coordinates	#
0	13	3	37 732	15	<b>668 929</b>
1	818	7	930 198		

Contrary to what was stated on on page 5, Section V, the 13 nonsystematic binary perfect codes of length 13 extend to 12 nonsystematic extended perfect binary codes.

ACKNOWLEDGMENTS

The authors thanks Ivan Mogilnykh and Sergey Malyugin for their help in finding and correcting the errors.
