

New resources for Otaniemi Campus Library

New eJournals

Communication & Mass Media Complete database includes ca. 160 journals in areas related to communication and mass media as well as some full-text monographs.

PressDisplay service provides access to more than 500 newspapers from 70 countries, available mainly for 2 months after publication.

PsycArt service contains approximately 60 full-text journals on psychology.

SAGE Management & Organization Studies contains the full texts of 36 journals.

Wilson Art Fulltext is a bibliographic and full-text database. Topics include fine arts, art history, photograph, film, arts industry, architecture, town planning, archeology and new media.

In addition the following journals are in use: Defensor Legis, Lakimies, Financial Times, Scientific American, Nature Chemistry, Nature Reviews Genetics and Nature Reviews Microbiology. More titles will be made available through the Nelli-portal as soon as access has been verified.

New Reference Works

Oxford Art Online offers access to Grove Art Online, Encyclopedia of Aesthetics, The Oxford Companion to Western Art and The Concise Oxford Dictionary of Art Terms. Oxford Reference Online includes more than 100 dictionary, language reference, and subject reference works published by Oxford University Press.

The New Palgrave Dictionary of Economics Online contains over 1,850 articles by more than 1,500 of the world's leading economists.

New Databases

ARTbibliographies Modern (ABM) provides full abstracts of journal articles, books, essays, exhibition catalogs, PhD dissertations, and exhibition reviews on all forms of modern and contemporary art.

ARTstor is a digital library of approximately 700,000 images in the areas of art, architecture, the humanities and social sciences with a set of tools to view, present and manage images for research and pedagogical purposes.

FIAF International Film Archive is a database which indexes articles from 300 film and TV journals.

World Textiles database contains citations to over 500 scientific, technical and trade periodicals, books, reports, conference reports and statistical publications. Topics include textiles industry, textile technology, and the application of textile materials.

Astika is a time series database maintained by Statistics Finland, which contains statistical data on the Finnish economy in the form of monthly, quarterly and annual time series. Altika contains regional statistics from various topics in long time series.

EconLit is a database of economic information produced by the American Economic Association and includes references to over 400 journals as well as books, theses and working papers.

Integrum Profi is a Russian portal that integrates several databases from Russia and other CIS (Commonwealth of Independent States) countries. It contains 400 million documents from 7500 sources: newspapers, magazines, materials from news agencies, Internet publications, literature, government publications and statistics.

LexisNexis includes news, company profiles, country specific research reports and information on legal issues.

MarketLine is a source of business information providing full text, in depth reports covering 10,000 companies worldwide, 2,000 industries and over 50 countries. It is also provides SWOT analysis and is linked to the latest news supported by comments and opinions from a team of in-house analysts. The country profiles include political, economic and macroeconomic data.

Enhanced Resources

The Business Source Premier package has been replaced with the more extensive Business Source Complete package, which includes 4300 journals from the fields of management, leadership, marketing, business and finance.

Proquest Dissertations & Theses database now also includes access to fulltext when available.

SourceOECD is the online library of the Organisation for Economic Co-operation and Development. It comprises 20 Book collections, 24 periodicals and the OECD statistical databases. Now access is to all the material.

The databases of Rakennustieto (RT-, KH-, SIT- and LVI-Net) now have IP-authentication and separate passwords are no longer needed.

The new tool in RefWorks, RefShare, makes reference management easy within and between research groups.

MOT dictionary service now also includes MOT Proofing which checks English text and suggests corrections and improvements.
